

WeldOps XF-400 Safety Glasses

Dual-material frame with multiple anti-scratch lens options

No-compromise eye protection

WeldOps XF-400 eyewear is made to handle any job in style, including drilling, chipping and metalworking. Its sleek half-frame design enhances low-angle viewing, and the bayonet-style temples with dual-material cushions and grips ensure a comfortable and secure fit. The included microfibre storage bag and anti-scratch coating protect and extend lens lifetime. Don't settle for less – upgrade to WeldOps XF-400 for stylish, durable eye protection. Available in four lens colours.

Applications:

Indoor eye protection – clear lens

Enhanced contrast – amber lens

Outdoor eye protection – grey and silver mirror lenses

- Half-frameless lens increases low-angle viewing
- Bayonet-style temple with dual material cushions and grips to comfortably stay in place
- Includes handy microfibre storage bag
- Anti-scratch coating enhances life of lens
- Meets CE, UKCA, ANSI, and CSA requirements
